PROFESSIONAL SUMMARY

Dedicated, innovative, and self-motivated Ruby on Rails / JavaScript developer with strong problem solving skills. Enjoys motivating others and being part of a productive team; equally comfortable working on own initiatives. Multilingual (English/Ukrainian/Russian)

TECHNOLOGY & TESTING PROFICIENCIES

Platforms / Systems: Mac OS; Linux; Windows; Android and iOS Mobile Platforms.

Technical Skills: Ruby, Ruby on Rails, Sinatra, PostgreSQL, SQLite3, MySQL, JavaScript, Node.js, Express.js, jQuery / jQuery-UI, HTML/HAML/ERB, CSS/SASS, Bootstrap, Semantic-UI

PROFESSIONAL EXPERIENCE

Back End Web Developer DevShop, New York, NY 07/2015 – Present

- // Developed an MVP of a large scale Ruby on Rails application
- // Integrated user-facing elements developed by front-end developers with server logic
- // Integrated 15+ social media & financial/accounting APIs into the app to perform calculations needed for the project's logic
- // Performed testing of the application features. Fixed application bugs
- // Maintained code quality and organization

Environment: Ruby on Rails, MySQL, HAML, CSS/SASS, jQuery, Capistrano, Apache, Passenger, Nginx, Git

Web Development Immersive, Student General Assembly, New York, NY 03/2015 – 07/2015

- // Built a Wiki App using Node.js, Express.js, SQLite3
- // Created a Contacts Manager app using JavaScript, Semantic-UI, Mustache.js, jQuery, JSON-Server.
- // Developed a Travel planning app using Ruby on Rails, JavaScript, jQuery, Bootstrap and PostgreSQL
- // Built a Meetup Events scheduling application with a small group, using Backbone.js and Ruby on Rails

Software QA Engineer Intern EKO Communications, New York, NY 01/2015 – 03/2015

- // Performed manual testing of mobile applications on Android and iOS devices
- // Tested a web-based application
- // Identified potential risks and creating a risk analysis report
- // Created Product Coverage Outline using mind maps
- // Wrote and executed test cases for regression testing of new builds of an application
- // Evaluated quality of a product on different stages of its development
- // Created comprehensive database of documented test and procedures to enable accurate replication and ensure compliance with standards
